Glenn is accident prone (34-22-35). It's all very well sitting there lusting over her but, believe me, you're a sight safer at a distance. This was the girl who solved the problem of screwing in a Mini. She thought, Ended up knocking the handbrake off and rolling across the downland turf towards a 300ft. white cliff of Dover! Would have made it, too, if they hadn't run into a courting couple who had just got to the short strokes before the earth moved and a Mini bust his clavicle . . .

It was Glenn who found the man of her dreams was impotent unless she lay down with an alarm clock under her bottom set to go off in 15 minutes' time. "The vibrations bring me off," he whimpered, as she rained the clock down his throat.

It was Glenn who had the most romantic actor she'd ever yearned for take her out in his car to the back of the golf-links and whisper: "Get your laughing gear around that!" in his exciting, vibrant voice.

No doubt about it, if you ended up in bed with Glenn, it would be a disaster! 1970
